

SupplyBay Plus

Absolute Control® in a Rugged,
Industrialized Vending System

SupplyBay Plus

**The Most Versatile, Industrial-grade
Vending System Available**

Performance engineered for harsh, industrial environments, SupplyBay Plus incorporates Absolute Control®, a lock-down mechanism for materials, while delivering reliable dispenses year-after-year. Designed to handle high-volume throughput and provide trouble-free dispensing for a wide range of industrial tools and supplies such as:

- **Cutting tools**
- **Welding supplies**
- **Gloves**
- **Safety supplies**
- **Batteries**
- **Maintenance items**
- **Shop supplies**

Control What You Need... Where You Need It

SupplyBay Plus is simple and easy to use. Proven by millions of faultless shop-floor vends, SupplyBay Plus makes it easy to implement Point-of-Use automation and control with confidence and configurable flexibility. With many application-specific helixes and dispense aids, SupplyBay Plus can easily dispense commonly-used industrial items with little or no repackaging.

The Advantages of SupplyBay Plus:

- Adjustable trays and dividers
- Configurable tray heights
- Smart motor technology – prevents motor burn out
- Large variety of risers and dispense aids
- Dual motor helix options
- Clear door option
- Heavy-duty weight capacity
- Retractable SupplyLink option
- Dispense larger-sized products by rotating multiple helixes in a single transaction

SupplyLink™ - Universal Touch Screen Control Module

SupplyLink is a universal control module that drives SupplyPro Point-of-Use devices. SupplyLink's easy-to-use touch screen interface is a visual gateway to the SupplyPort and a world of productivity-enhancing information. Each SupplyLink can drive one or many SupplyPro products, including SupplyBay, SupplyLocker, SupplyScanner and SmartDrawer.

SupplyBay Plus

SupplyBay Plus with New Retractable SupplyLink

SupplyPro has introduced a new retractable option for its SupplyLink that allows users to store the screen, the driver for the SupplyBay Plus device, flush against the side of the cabinet.

Users can swing the SupplyLink in front of the cabinet when in use, such as during restocking or inventory selection, and swing it back for storage.

SupplyBay Comes with Various Helix Types and Dispense Aids and is Available with a Clear Front to Meet Your Specific Dispensing Needs

Knowledgeable and flexible configuration of the SupplyBay is key to flawless dispensing. SupplyPro experts work with you to ensure that your facility's individual dispensing needs are met, accurately and efficiently, with Absolute Control.
